ABOUT ME

Product designer with 4+ years across enterprise platforms and consumer apps. By day I design internal tools for Vienna Insurance Group. On the side I co-founded Chisme, a social discovery app with 20K+ monthly users. I care about clarity in complex systems and building things that actually get used.

CORE SKILLS

- Product design
- Enterprise UX
- Mobile app design
- Design systems
- Information architecture
- Prototyping & usability testing

TOOLS

- Figma
- Cursor
- Framer
- Google Analytics 4
- v0

LANGUAGE

- Slovak language
Native

WORK EXPERIENCE

PRODUCT DESIGNER

GetFound s.r.o. | Jan 2021 – NOW

Designing internal enterprise tools and digital products for financial and insurance companies.

PROJECT NEURON - VIENNA INSURANCE GROUP | JAN 2023 - NOW

Designed UX for several internal applications used by insurance employees across multiple departments.

- 1. Product Modeler**
 - Designed a platform interface for managing complex insurance product structures containing thousands of parameters
 - Created a tree table navigation system with breadcrumb context to support orientation in deep hierarchical data
 - Structured large configuration forms linked to product parameter hierarchies, improving clarity and data consistency
- 2. Tasklist**
 - Designed an internal task management system used by insurance agents across operational workflows
 - Defined task categorization, prioritization, and status states to improve clarity of daily work processes
 - Designed responsive layouts to ensure usability across desktop and mobile environments
- 3. Reporting dashboards**
 - Designed analytics dashboards used by supervisors to monitor task completion and team performance across 300+ internal employees
 - Visualized ongoing, completed, and delayed tasks across time periods, teams, and operational units
 - Designed comparison views for weekly and historical performance metrics

Impact: Platform actively used by 300+ insurance employees daily across multiple departments.

Tools: Figma, Token Studio, Jira, Confluence

PRODUCT PROJECTS

CO-FOUNDER & PRODUCT DESIGNER, CHISME | OCT 2025 – NOW

Women-only social app for meeting people through shared real-life plans. Built from zero with one co-founder, while working full-time.

- Designed the full product experience including onboarding, discovery flows, chat, and social interactions
- Built the UI foundation and component system used across the app
- Designed conversation mechanics that reduce friction when starting interactions between strangers
- Implemented safety and moderation UX patterns for community interactions
- Designed growth features including referral mechanics and early community engagement flows
- Iterated on the product through user feedback and small scale testing

- Product metrics**
 - 20K+ monthly active users
 - 4.7 rating on App Store
 - 4.5 rating on Google Play
 - Monetized through in-app subscriptions
 - Monthly user growth driven by organic referrals

Tools: Figma, Cursor, RevenueCat

PRODUCT DESIGNER, DATEMAPPER | 2024 (FREELANCE)

Led UX design from concept to launch. User stickiness and session duration went up significantly after redesign.

"User stickiness and session duration went up significantly. Without Martin, DateMapper would not have been able to get to where it is right now."
— Joshua Lever, CEO of DateMapper

EDUCATION

- 2017 - 2020
UNIVERSITY OF ECONOMICS PRAGUE
 - Business Economics and Management(incomplete study)
- 2014 - 2017
GYMNÁZIUM PAVLA HOROVA MICHALOVCE
