ABOUT ME

Senior product designer working both ends of the spectrum.

Currently designing a design system and AI powered features for **Sanofi** web ecosystem.

On the side I co-founded **Chisme**, scaled from zero to **50K+ MAU** with a **4.8 App Store rating**.

5+ years of experience.
Based in Barcelona.

CORE SKILLS

Enterprise UX
(insurance, pharma, finance)

Design systems
(Figma Variables)

Consumer mobile apps
(iOS, Android)

A/B testing & experimentation

Stakeholder management

Accessibility (WCAG)

Prototyping & usability testing

AI-assisted web development

TOOLS

Figma

Cursor + Claude
(AI-augmented design + development)

Framer

RevenueCat

Google Analytics 4

Jira / Confluence

LANGUAGES

Slovak	**Native**
Czech	**C2**
English	**C1**
Spanish	**B1/B2**

WORK EXPERIENCE

Senior UX Designer

Sanofi | Jul 2026 - Present (contract)

Design system and UX work for Sanofi's web ecosystem.

- Building and maintaining the design system used by external agencies. Producing Sanofi sections and sites
- Designing AI-powered search for product web platforms
- Partnering with agency teams to maintain visual and interaction consistency across a distributed delivery model

Co-Founder & Senior Product Designer

Chisme | Jun 2025 – Present

Women-only social app for meeting people through shared real-life plans. Built from zero with one co-founder while working full-time.

- Scaled the app from **zero to 50K+ MAU** with **14% D7 / 8% D30 retention** by designing the full product experience: onboarding, discovery, chat, social interactions and iterating activation flows through A/B testing
- Achieved **~3% free-to-paid conversion** by designing the subscription paywalls and upgrade triggers (RevenueCat)
- Built the foundational UI component library and design system patterns from day one, enabling fast iteration as the product scaled
- Implemented safety and moderation UX for healthy community interactions
- Drove organic growth via referral mechanics and early community engagement flows

Metrics: 50K+ MAU · 4.8 App Store · 4.5 Google Play · 14% D7 / 8% D30 retention · ~3% paid conversion

Tools: Figma, Cursor, RevenueCat

Senior Product Designer

Vienna Insurance Group | Jan 2024 – Jun 2026 (contract)

Owned UX across multiple internal applications used daily by 300+ insurance employees in operations, supervisory, and field teams.

Designed a product configuration platform with tree-table navigation for thousands of parameters, an internal task management system with categorization and status logic, and analytics dashboards giving supervisors daily visibility into ongoing, completed, and delayed work across teams, time periods, and operational units.

Tools: Figma, Token Studio, Jira, Confluence

Product Designer

DateMapper | 2024

Led full UX redesign from concept to launch as sole designer, working directly with the CEO.

- **Increased user stickiness and session duration by 35%** through end-to-end UX redesign

> *"User stickiness and session duration went up significantly. Without Martin, DateMapper would not have been able to get to where it is right now."*
> *— Joshua Lever, CEO of DateMapper*

Product Designer

GetFound s.r.o. | Jan 2021 – Jun 2026 (freelance)

Lead end-to-end product design for enterprise clients in finance and insurance. Own projects from discovery through launch, partnering with PMs, engineers, and business stakeholders. Contribute to and help govern the shared design system, applying WCAG accessibility guidelines across enterprise applications.

Bouračka Web App | 2024

Designed a **market-first web application** for online accident reporting and multi-insurer claim submission, simplifying a traditionally offline and fragmented process. Restructured form logic and step progression to support higher completion rates.

Smart Experta (Insurance App) | 2021

Mobile app for insurance field agents. Streamlined data collection, photo documentation, and report submission into a focused mobile flow for non-technical users in real-world field conditions (poor connectivity, time pressure).

EDUCATION

University of economics Prague | 2017 - 2020

Coursework in Business Economics and Management

Gymnázium Pavla Horova Michalovce | 2014 - 2017
